

Interpretability of DMG-PPI

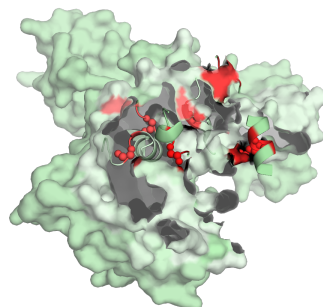

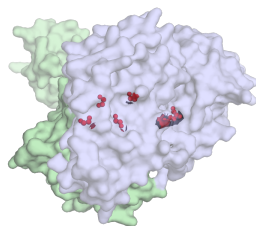

DMG-PPI identifies hotspot residues within PPIs. Shown below are 11 representative cases, where hotspot residues are highlighted in red. For each case, the left panel displays the ground truth, while the right panel shows the prediction computed by DMG-PPI.

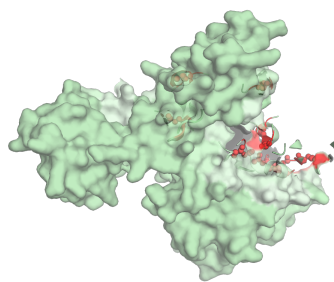

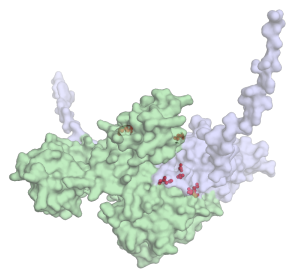

P01730 and P41240

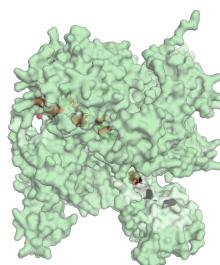

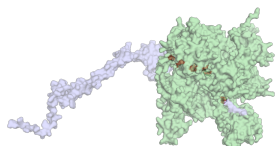

P08620 and P19174

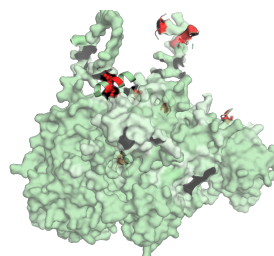

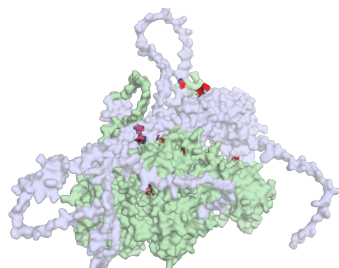

O15264 and P41240

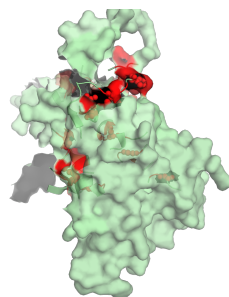

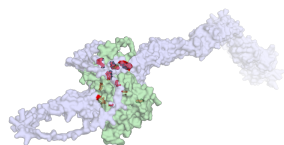

O43921 and P41240

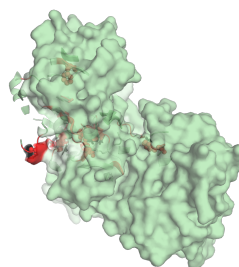

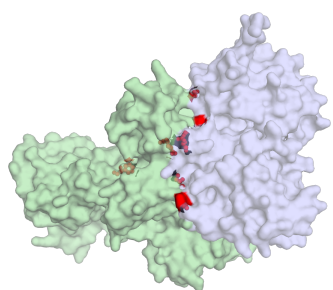

P11912 and P19174

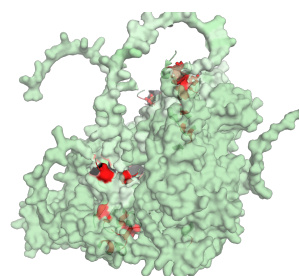

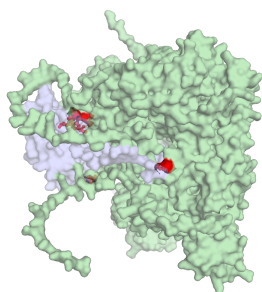

P19235 and P19174

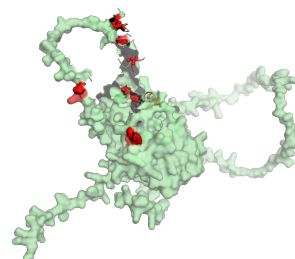

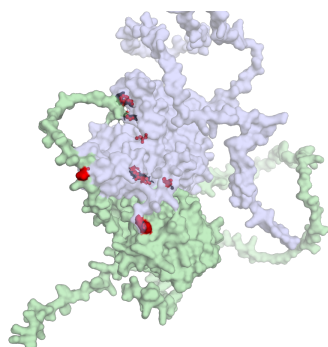

P20273 and Q15466

P53778 and P41240

Q9NP95 and P19174

Q15750 and P23443
